Why do you recommend Soanes as a great place to progress your career	When I came to England, I couldn't speak a word of English. But I soon realised that I can't work and live in here without speaking the language, so I have learnt myself and because I was an engineer in my country and I was interested in machinery and how the process work they have seen potential in me. They progress my career and I became a maintenance Manager years ago and still doing a job that I enjoy.
